How much does a Flock camera cost for your neighborhood?

Pricing is straight-forward

Pricing is pretty straight-forward. For **neighborhoods**, on a two-year contract, it's $2,000 / camera / year. This includes everything - installation, maintenance, footage hosting, cellular service, and software updates.

Our **police-grade camera system** is $2,500 / camera / year with a one-time $250 installation cost. This includes - maintenance, footage hosting, cellular service, unlimited hotlist alerts, and software updates.
Wondering how many cameras you community needs? Please contact our team for a custom proposal.
